Self-check — Stakeholder Register, Power/Interest Grid and Salience Model

Tick each item you have completed. Any blank is a gap to close before your group presents at the debrief.

#	Criterion	Evidences	✓
1	Your register includes the three admin staff. A register listing only powerful people is a list of bosses, not a stakeholder register.	LO4	
2	Every stakeholder has a numeric power and interest score, and their grid position matches those scores.	LO4	
3	Your salience analysis produced at least one insight the grid did not - if both tools gave you identical conclusions, you applied the grid twice.	LO4	
4	You identified the admin staff as dependent and stated that the PM's role is advocacy.	LO4	
5	Every C-to-D gap in the engagement matrix has an action with an owner and a date. Gaps with no action are not a plan.	LO4	
6	Your M-1 facilitation plan converts the disagreement into a concrete trade-off with a number attached (55 story points / 1.6 sprints), rather than a debate about importance.	LO4	
7	Your engagement cadence has different frequencies for different stakeholders. If everyone gets a fortnightly email, you have not tailored anything - and People T4 explicitly requires tailored communication.	LO4	

Debrief check

Your register includes the three admin staff. A register listing only powerful people is a list of bosses, not a stakeholder register.
