Self-check — Conflict Resolution: Five Modes, Leas' Levels and Negotiation

Tick each item you have completed. Any blank is a gap to close before your group presents at the debrief.

#	Criterion	Evidences	✓
1	Every one of the five modes has a legitimate use written against it. If your notes say force and withdraw are always wrong, you will get the safety question wrong.	LO3	
2	You can name three situations in which collaborate is NOT the right answer, and say why in each case.	LO3	
3	Your Leas diagnoses cite the actual words spoken, not your impression of the tone.	LO3	
4	You can state what changes at level 4 and why collaboration is unavailable above level 3.	LO3	
5	Your CF-04 entry treats the admin staff as dependent stakeholders and has the PM advocating, not chairing neutrally - and you can defend why that is not a loss of impartiality.	LO3	
6	Your role-play 1 debrief names the spike-first option and identifies the single question that surfaces both interests.	LO3	
7	Your role-play 2 notes convert "is AI important" into a concrete either/or with a number attached.	LO3	
8	Your role-play 3 notes reach the structural cause (no transfer point, quality treated as an end stage) and not just the two disputed stories.	LO3	

Debrief check

Every one of the five modes has a legitimate use written against it. If your notes say force and withdraw are always wrong, you will get the safety question wrong.
